

“ 35% of households in California with schoolchildren lack Internet access. ”

— FRESNO BEE  
December 2, 2020

This will continue unless we come together to change it. The time is now.

California Emerging Technology Fund (CETF) has written the Digital Equity Bill of Rights with the goal of empowering everyone to have quality Internet access. Won't you join us and sign today?

1

## The time is now!

During this pandemic, we've seen the power of quality Internet services for those who have it and the impact for those who do not.

2

## How can I help?

CETF has developed the Digital Equity Bill of Rights, and we need your support to make equal Internet access for all a reality.

3

## What is the Digital Equity Bill of Rights?

CETF and its partners have established 10 principles to advocate for new legislation and policies to expand broadband deployment, affordable home Internet offers and digital literacy training.

4

## Where do I sign?

Go to:  
[www.internetforallnow.org](http://www.internetforallnow.org)  
and fill out the form to become a supporter of the Digital Equity Bill of Rights. Please also follow the CETF social media account Internet For All Now on Facebook and Twitter as @net4allnow.
